

# Line Review

Point out the different types of line that are used here.

What types of line are being used here?

# Shape and Form

Pre-Test!

What is the difference?

Draw an example of each on the board.

# Shape

An enclosed space.

Can shape describe form?

# Form

Appears or is three dimensional.

Sometimes form and shape get mixed up, how would you illustrate them to someone?

# Cross-Content Thinking

What is a subject in school that has two different classes that each center on shape and form?

# Learning Goals: Shape and Form

You should know:

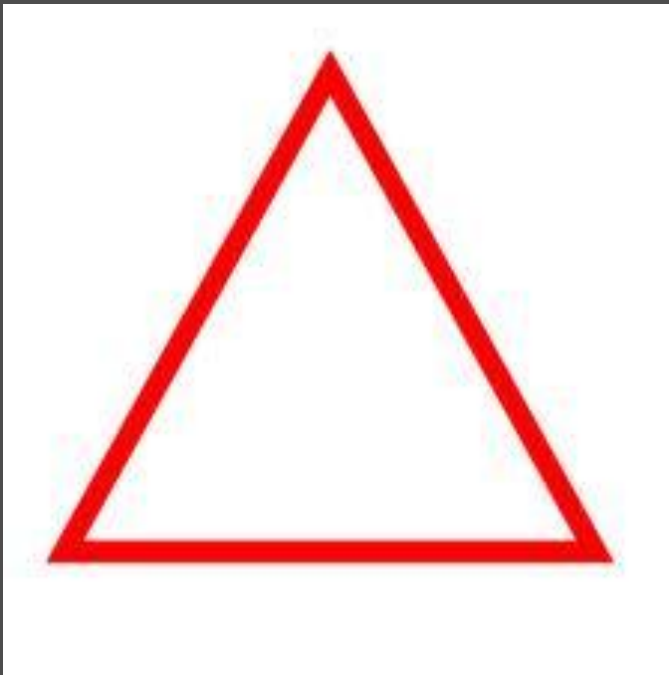

1. What is Shape?
2. What is Form?
3. How does form compare to shape?
4. What are some key words associated with shape and form?

# Shape Styles

RECORD IN YOUR IWB

-Drawn, On Paper

-Tangible

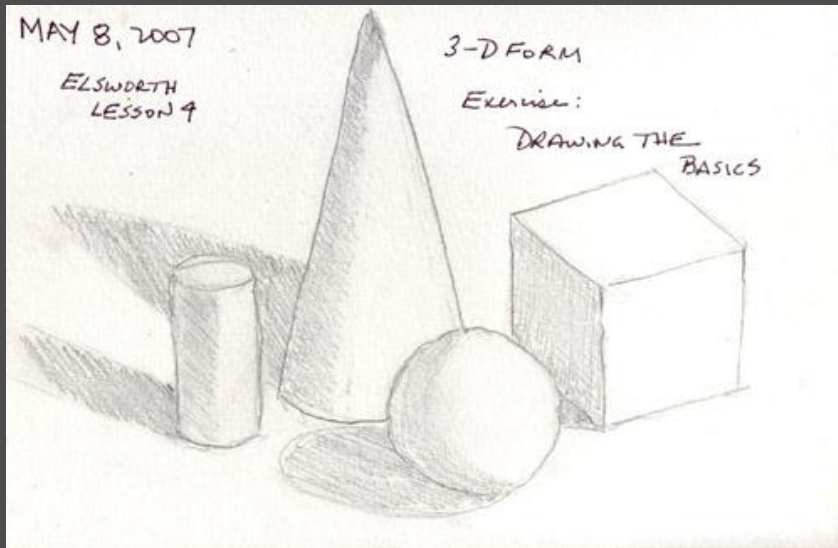

# Form Styles

RECORD IN YOUR IWB

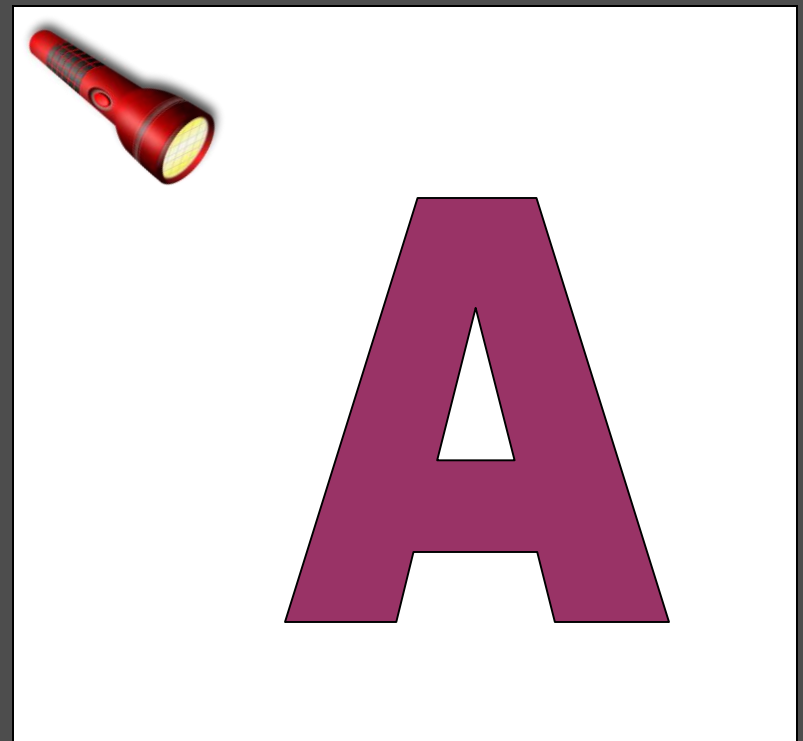

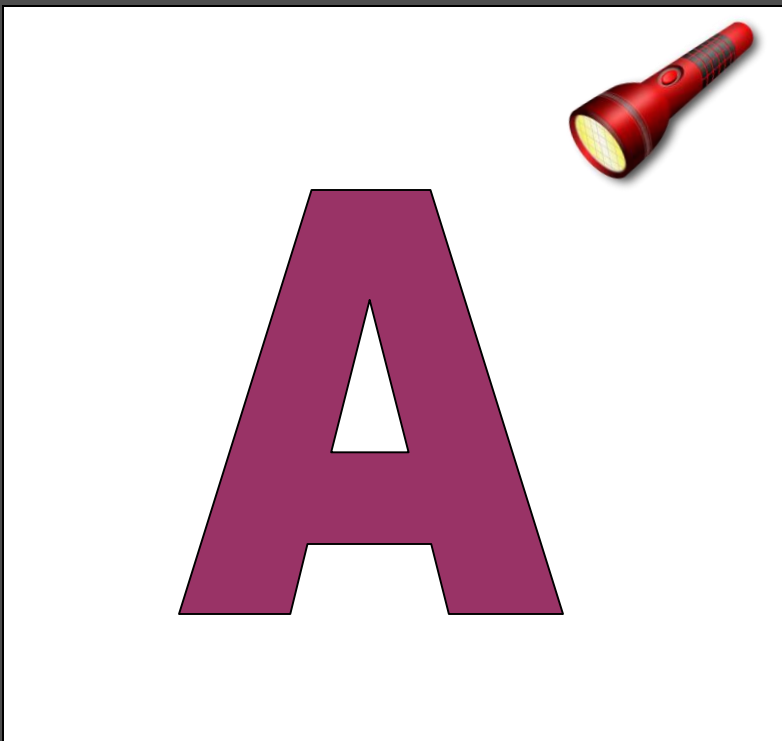

-Two-Dimensional

-Three-Dimensional

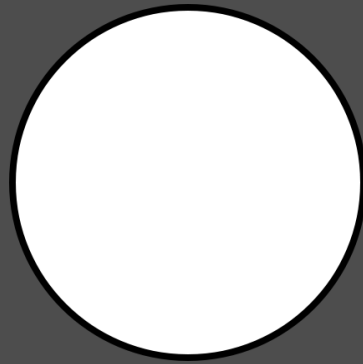

# Complete the picture:

-Turn these shapes into forms based on placement of the light source

# How does Form compare to Shape?

-Shape is a two dimensional enclosed space that does not suggest three-dimensional aspects.

-Form is a three-dimensional space that suggests three-dimensional aspects.

# Assignment

- Turn your graffiti “shape” into a form.
- Do not add shading or shadows yet, simply make the text and symbols three-dimensional

# Successful Graffiti Form

-Where is the light source coming from?
